Media attention generated from high profile abuse and neglect cases, child fatalities and near-fatalities.

Child Welfare Services

Program or Activity CWS - CMS

SubProgram or Service Modality or Function

Program/SubProgram Description

Child Welfare Services/Case Management System (CWS/CMS) is a result of Chapter 1294, Statues of 1989, and Senate Bill 370. SB370 required the development of a Statewide computer system to automate the functions of County child welfare offices. Allows for a centralized Statewide system that allows State or County child welfare workers to share information on child abuse cases. Public Law 96272

Child Welfare Services

Program or Activity CWS - Family to Family

SubProgram or Service Modality or Function

Program/SubProgram Description

Family-Centered, Neighborhood-based Services. An approach to working with children, families and communities. Based on the principle that the first and greatest investment in time and resources should be made in the care and treatment of children in their own homes, and when not possible, in their own communities. Based on the premise that neighborhoods are the primary source of opportunity and support for families and are therefore, primarily responsible for assuring the safety and vitality of their members. Integration of this approach into daily practice does require partnerships, strong relationships and true collaboration between all of the stakeholders, i.e. birth family, foster care providers, service providers and community agencies.

Child Welfare Services

Program or Activity CWS - Residential Services

SubProgram or Service Modality or Function CWS - Residential Group Home and Foster Family Agency Placement and follow up

Program/SubProgram Description

This is a Child Welfare program, designed to deliver child welfare services to dependents of Juvenile Court who are also SED and in need of a higher level of therapeutic placement services. Some dependent children are unable to live in county licensed foster family homes (LFHs) due to severe emotional problems. These children require more structured placements and must be screened by a Residential Services (RS) Screener for acceptance into the RS placement units. Types of placements include Social Workers providing case management services to children placed in Foster Family Agency Foster Homes (FFA) and Licensed Group Homes (LGH). Case management services are also provided to siblings of children placed in the above facilities. These siblings are in a variety of placement settings. Residential placements also include AB2726 mandated services. Mandated by Welfare & Institutions Code.
