

Advisory Group Agenda

June 30, 2004

I. Welcome and Introductions

II. Brief Activity Update

III. Action Items

- **Support continued development of all 3 integration strategies (Network of Care, Physician, HSD+/Health Plan Pilots)**
- **Accept the Draft Administrative Action Plan as a working blueprint to continue planning for Healthy San Diego Plus (HSD+).**
- **Support recommendations from Mental Health & Substance Abuse Workgroup:**
 - Mental health and substance abuse services should be included in LTCIP, beginning phase-in with the 65 year old and older population;
 - Persons under 65 with severe and persistent mental illness and/or substance abuse issues are phased in to LTCIP at a later date when the collection of stakeholder concerns has been addressed satisfactorily;
 - Depression, mental health and substance abuse screening should be included in LTCIP risk screening;
 - Research on successful behavioral health models should be continued for the 65+ to insure a policy of parity between general medical care and behavioral health services at initial implementation. This will also be done for the under 65 when phase-in for this group is implemented;
 - LTCIP should protect existing funding principles for physical, mental health and substance abuse services, as a step toward delivering effective, integrated services;
 - State contracting language should allow psychiatrists to serve some primary care functions for persons with a primary diagnosis of mental illness.

IV. New Business

V. Adjournment
