

**Finance/Data Workgroup
Announcement**

October 3, 2001

To: Finance/Data Workgroup Members

From: Jan Spencley – Chair

Re: Meeting Announcement

The next Finance/Data Workgroup is scheduled to meet:

Date: October 18, 2001

Time: 1:30 to 3 PM

Location: Room 212, Askew Building, 1700 Pacific Highway, San Diego

Agenda items will include discussion of the local vision and options for a service delivery model. Also, we will re-cap the Arizona presentation and prepare questions for the meeting with the experts from Texas. Two executives of one of the contracting health plans for the Texas Star+Plus Program will provide an overview of that program at the **October Planning Committee meeting re-scheduled for Friday, Oct 26, from 10:30 AM until noon, at Aging & Independence Services in the Training Room.** The Texas Star+Plus Program is the model closest to San Diego's "vision" for acute and long term care integration.

Members of the Finance/Data Workgroup and the Health Plans are invited to an "after meeting" immediately following the Planning Committee meeting, in the same room. Lunch will be provided and the experts from Texas will provide a more specific presentation on their model: concurrent 1915(b) and (c) waivers, waiver "slots", problems experienced in start-up and implementation, etc. There will be time for questions and answers. **Put these meetings on your schedule now—you won't want to miss this important opportunity!** (Also, I need your sandwich preference!)

If you have any questions, please call Evalyn Greb at 858-495-5428. I look forward to seeing you on the 18th and 26th!
