San Diego, CA 92123**

Area Board XIII and the Developmental Disabilities Advisory Committee invite all interested parties to attend this meeting to help the Long Term Care Integration Project (LTCIP) develop a plan to prevent duplication and fragmentation of services for persons with developmental disabilities as LTCIP is implemented.

Notes from the August 13, 2002 meeting are attached. Please invite colleagues, consumers, caregivers, and advocates to join the planning process! For those of you who are not familiar with LTCIP planning in San Diego, you might want to log onto the Web site for some background information before the meeting. Please call Evalyn Greb at 858-495-5428 or egrebxsa@ca.san-diego.ca.us for more information.

Please RSVP for meeting. If you are unable to attend and would like to in the future, let me know when good days and times for you might be. Thank you!
