

Stakeholders Group for Persons with Developmental Disabilities Meeting Notes

October 18, 2002

I. Participants

Terri Baur, Juanita Rettinghaus, Jill Sanford, Elaine Lewis, Linda Bethel, Mary Krieger, Carol Fitzgibbons, Mary Ellen Stives, Janet Allison, Ken Rundle, Stacy Kendall, Merari Linares, Evalyn Greb, Sara Barnett

II. Discussion Points

- Evalyn Greb, Chief of Long Term Care Integration, HHSA, AIS, gave an overview of the three Long term Care Integration Project (LTCIP) strategies (Network of Care, Socio-Medical Care Management, and Health Plans/Pilots) and how they relate to the LTCIP Developmental Disabilities Stakeholders Workgroup. The LTCIP would like feedback regarding these strategies and how they might be further developed and implemented to address the needs of the developmental disabilities population (see attachment A).
- Three options for LTCIP inclusion of persons with developmental disabilities were identified and briefly discussed (see attachment B). The LTCIP is looking for input from the stakeholder community on these options as well as help in identifying additional options for the inclusion of persons with developmental disabilities.
- The State announced that it would like to make several amendments to change the language of the authorizing legislation for long-term care integration (AB 1040). The goal is to help facilitate implementation of LTCI programs for participating 1040 counties.
- The Stakeholders Group for Persons with Developmental Disabilities recommended that the 1040 legislation be changed to require that the Department of Developmental Disabilities and all local regional centers participate in the LTCI planning process. It was also suggested that Regional Center waiver dollars be written into the legislation. Evalyn will forward recommendations to the state.

III. Suggestions/Recommendations

- Review attachments about LTCIP strategies and possible options and bring questions, feedback, etc., to the next meeting.
