

LTCIP OPTIONS WORKGROUP MEETING POSTPONEMENT

The full Options Workgroup will not be meeting until after the first of the year. LTCIP staff are in the process of finalizing the funding proposal for the three strategies that have been discussed and developed over the last several months (Network of Care, Socio-Medical Care Management, Health Plans/Pilots).

The Options Workgroup and the three strategy sub-groups will reconvene after funding response from foundations to help support options activity.

In the meantime, workgroup members are encouraged to continue attending the monthly Planning Committee meetings as well as the other LTCIP workgroup meetings.
